AN INVENTIVE ALEXANDRIAN,-The Richmond Dispatch says :

"John Bryant, of Alexandria, a white conviet now serving out his term in the penitentiary, has made what he calls 'a Castle of Patience.' It represents his labor during three years and a half when he was not employed in prison duties, and is a structure about seven or eight feet long, four feet wide, and from three to four feet high. In general shape it looks like an English castle of feudal times, with towers, battlements, gateways, &c., and is nide of 365,000 pieces of wood, each about two inches long and of the width and thickness of a small knife-blade. The wood is from swenty-five different kinds of trees, and to fashion each splinter, or 'jack,' it had to be handled eight times. No pail, serew, wedge, glue, or other thing of the kind is used in holding the material together. It is interlaced, or latticed, much after the fashion in which many p crure frames are now-a-days made. The casthe is adorned with photographs and pictures, which, while not in keeping with the design, give it a pleasant appearance. In one part of the castle is a room meant to represent the prisoner's cell, and it is a faithful portrayal, This work, which is the result of an immense amount of calculation and labor, was all done by Bryant, under many disadvantages, and the only tool or instrument employed by him was a shoe knife, the blade of which has been worn lown nearly to the handle. Bryant looks upon the eastle with great pride, and when visitors speak in praise of it he can hardly suppress his cars. It is a monument to his industry and patience, though it may be considered of no great practical value. Col. Coleman has writ ten him a placard giving the history of the production, and answering in advance all questions people would be most inclined to ask. Bryant is allowed to sell to visitors small picture frames made in the style of the castle. B. fore entering the penitentiary he was a waterman at Alexandria.' THE COAL TRADE. - The Cumberland pa-

pers of yesterday furnish the following items of interest regarding the coal trade: The coal shipments by canal on Saturday

were the largest for any day this season. One hundred and eighty five boats cleared from Cumberland last week, carrying 20,802.12

STEAMER KEYPORT.-The following complimentary notice of the Keyport line, presided ever by that prince of steamboat commanders Capt. Harry Warren, appears in the Richmond Dispatch :- "One of the most charming trips a person can take in the spring or summer eason is to spend a day in making an excursion Alexandria or Washington by the boat line of the Fredericksburg Railroad. It is treposed to make the display a large one, and to add a cattle show. The members of the Association hope from a small beginning in this way to finally succeed in getting up an agricultural fair, which will do credit to this section of the State. A committee has been appointof on the subject.

VESSELS WANTED .- There is at present a great searcity of vessels for the coal carrying tride both here and at Georgetown. Large quantities of coal are being received, and there are many orders in the hands of the coal agents, Who are unable to fill them for want of transdicks at an additional expense.

ALEXANDRIA AHEAD. - Another evidence If the superiority of Alexandria as a grain marand was given this morning by the arrival of the schooner Columbia Fishing Club with a cargo of wheat, which had been bought in Baldirecte by one of our grain buyers and brought hate, where it was resold to the millers at a ter prefit.

MIDNAPPED. - A small white boy belonging " Prince George's county, Md., was kidnaphed near Odenton, on Sunday evening, by four begroes. He was kept confined until a late hear of the night, when, the county having been alarmed and pursuit made, the negroes at the boy at liberty and fled.

Lindheimer's was at ended this morning by numbers of the adies of the city who expressed themselves as being much pleased with the beauty and vaflety of the goods shown. The hats and bon nets were of the latest Parisian fashions, imported by Mr. S., and were the handsomestever oficred in this city.

FISH REPORT.-Receipts at Fi howo have largely increased since yesterday, so far as regards herring, with a prospect of a still larger igerease. The catch of shad, however, has been very small. Since last report there have been received about 2,000 shad and 175,000 herring, the former of which brought from \$16 to \$16.50 per hundred, and the latter from \$10 to \$10.50 per thousand. The largest cargoes received have been those of the steamer Prince William, from Aquia creek, consisting of 50,-000 fish, and the sceamer Harbinger, from various shores, consisting of 40,000. The latter cargo was brought down from Washington on

POLICE ITEMS,-James Hill, colored, for stealing a hat from Joseph Brent, also colored, by swapping, without the consent of Brent, was sentenced to receive twenty lashes, and, becoming very abusive and impudent to the Mayor, had ten more added.

Two restaurant keepers, accused of selling liquor on Sunday, were dismissed on payment of costs.

Two colored men were tried before Justice Thompson on the charge of raising a check, but were dismissed for want of evidence.

THE PRICE OF FISH.-A lady residing in Fauquier has sent this office a leaf from an old memorandum book, belonging to her father, which shows the prices of shad and herrings from 1819 to 1832. The notes were made between the 2d and 20th of April, in various years, and quote shad from \$2.50 to \$5.00 per hundred, and herriogs from \$1 to \$2 per thousand, considerably less than the prices of the present day.

THE OTTMAN CASE. - A special term of the U. S. Circuit Court, Judge Hughes to preside, will be held here on the 26th inst., to try the case of the U. S. vs. Ottman et als., for the recovery of that portion of the \$47,000 stolen from the U. S. Treasury deposited in the German Savings Bank of this city. F. L. Smith and Richard T. Merrick will represent the defeudants.

It would no doubt be highly amusing, and at the same time astonishing, to see a complete list of all the expressive and "powerful" names of the multitude of short-lived medical preparations placed upon the market during the past few years as "most wonderful discoveries" and intallible cures, (In hoc signo vinces,) by unscrupulous speculators and adventurers who, recognizing the value of advertising, seek by these means to obtain public favor and popularity for their doubtful and so often entirely worthless and even dangerous preparations. And it is a genuine pleasure for us to commend Dr. Buli's Cough Syrup as one of the few really deserving medicines offered to the public. Its adoption by many of our intelligent physeians companies are buying largely of Cumberland is due only to its real worth and merit, and by ceal, and that many contracts have been made thousands of families it is regarded as "the standard household remedy.'
